

DIGESTIVE CARE

Probiotic paste for cats and dogs

A probiotic paste for cats and dogs aiding in digestive upsets

Digestive Care is an oral paste which contains prebiotics, probiotics and bentonite clay. Bentonite clay can help calm digestive upset by acting as a binder. Probiotics are important in restoring beneficial flora in the gut while prebiotics provide nourishment for the growth of these bacteria. Digestive Care is available in 15ml, 30ml and 60ml calibrated syringes making administration easy for any size cat or dog

Composition

Enterococcus Faecium 3×10^{11} CFU/kg
Fructo-oligosaccharides
Bentonite Clay

* Also contains Soya Oil, Refined
Coconut Oil and Yeast
